RESEARCH INTERESTS Observation Cosmology, Large-area Sky Surveys (e.g., DES, LSST, SDSS, ACT, SPT), Galaxy Clusters, High Performance Computing (HPC), Galaxy Evolution, Interacting Galaxies and Morphology.

Education **Texas A&M University**, College Station, Texas USA

- Ph.D, Physics (astronomy focus), August, 2016

**The University of Tennessee**, Knoxville, Tennessee USA

- M.S., Physics (astronomy focus), August, 2009
- B.S., Physics, May, 2007

Professional Experience **Dept. of Physics and Astronomy, Rutgers University**, New Brunswick, New Jersey USA

*Postdoctoral Research Associate* **September, 2016 – Present**

- Designed and built massive, parallelized, Python pipelines to process and analyze TBs of astronomical imaging; producing calibrated, standardized data catalogs and rigorous results.
- Coordinated a team of 4, including both senior scientists and graduate students, to perform quality control tasks; deliver science products; and produce peer-reviewed publications.
- Contributed to open source Python projects including: PHOTOMETRYPIPELINE, ASTLIB, and EASYGALAXY.

**Texas A&M University**, College Station, Texas USA

*Ph.D Candidate* **August, 2010 – 2016**

- Proved simulated results for an upcoming astronomical survey could be improved, by a factor of  $\sim 3$ , over in-house statistical methods by using Random Forest regression. Implemented these ML methods and produced improved results in a pilot survey of the real sky and under real-world conditions.
- Collaborated with group members both in person, and through collaborative tools (e.g., GitHub, SVN).
- Presented scientific results in high-impact, peer reviewed journals and at international conferences.

**The University of Tennessee**, Knoxville, Tennessee USA

*Master's Candidate* **August, 2007 – 2009**

- Implemented a C-based pipeline to process hundreds of GBs of simulation results. Including a computer vision algorithm to automatically analyze and compare results to expected targets.
- Optimized simulation parameters using a genetic algorithm based search utilizing HPC (100k+ core) systems at the National Center for Computational Science, part of Oak Ridge National Laboratory

OBSERVING EXPERIENCE Proposals

- *On the Trail of the Most Massive Galaxy Clusters in the Universe*  
Co-I (PI: J. Hughes), KPNO, 3 nights awarded, 2016
- *X-ray Confirmation of Candidate Planck Clusters with Swift*  
Co-I (PI: J. Hughes), KPNO, 3 nights awarded, 2016
- *Measuring the Masses of X-ray-Selected, Low-Mass Galaxy Clusters and Groups with Integral Field Spectroscopy*  
Co-I (PI: N. Mehrrens), McDonald Observatory, 4 nights awarded, 2013
- *Measuring the Masses of Galaxy Clusters with Integral Field Spectroscopy*  
Co-I (PI: C. Papovich), McDonald Observatory, 9 nights awarded, 2012
- *Measuring the Masses of Galaxy Clusters with Integral Field Spectroscopy*  
Co-I (PI: C. Papovich), McDonald Observatory, 5 nights awarded, 2012

Telescopes

- Harlan J. Smith 2.7m Telescope, Mitchell Spectrograph (formerly VIRUS-P), 20+ nights
- KPNO, Mayall 4m Telescope, MOSAIC3, NEWFIRM, 10+ nights

#### Data Experience

- Optical and Near-IR Imaging
- Integral Field Spectroscopy
- Hubble Space Telescope Imaging
- Sloan Digital Sky Survey Imaging and Spectroscopy

#### COMPUTING EXPERIENCE

Extensive experience in the processing and application of large astronomical data sets, including: the acquisition and reduction of optical integral field unit spectroscopy, querying large astronomical databases such as the Sloan Digital Sky Survey and the Millennium Simulation, analysis of multi-wavelength imaging from the Hubble Space Telescope. Key computing skills include: mastery of the Python language, and the interface with other languages and tools, considerable experience with large multiprocessor applications (e.g. Gadget-2) and high performance computing systems, supervised and unsupervised machine learning and optimization, GPGPU computing, and participation in open source and collaborative development environments, including version control. Contributor to ASTROPY. Co-author of ASTLIB python library, see <http://astlib.sourceforge.net>

#### TEACHING AND OUTREACH

**Texas A&M University**, College Station, Texas USA

*Teaching Assistant*

**2010 – Spring, 2015**

Supervised undergraduate students for weekly lab sessions, tutoring sessions, grading of homework and quizzes for Basic Astronomy, Overview of Modern Astronomy, and Survey of Astronomy.

*Physics Festival*

**2010 – Present**

Demonstrated physics and astronomy principles for students from elementary through high school and the general public.

*Star Parties*

**2010 – Present**

Discussed astronomical topics and operated telescopes for college students and the general public.

**Nashville State Community College**, Nashville, Tennessee USA

*Adjunct Faculty*

**Spring, 2010**

Primary instructor for introductory physics course, Conceptual Physics.

**The University of Tennessee**, Knoxville, Tennessee USA

*Teaching Assistant*

**August, 2007 – 2009**

Supervised laboratory experiences for undergraduate students in Introduction to Modern Physics, and Electricity and Magnetism for Engineering. Designed and taught laboratories for undergraduate Honors Astronomy.

#### ACADEMIC HONORS AND AWARDS

The University of Tennessee: graduated Magna Cum Laude, Phi Beta Kappa, Sigma Pi Sigma, President, Society of Physics Students 2006 thru 2007

#### GRANTS AND AWARDS

- *The Road to the Virgo Cluster: The DECam/IRAC Galaxy Environment Survey*  
Co-I (PI: C. Papovich), NSF Alliances for Graduate Education and the Professoriate, 2015
- *Graduate Student Presentation Grant*  
PI, Texas A&M University Office of Graduate and Professional Studies, 2015
- *Graduate Student Travel Grant*  
PI, Texas A&M University Department of Physics and Astronomy, 2015

#### POSTERS AND PRESENTATIONS

Talk: 227th AAS Meeting, Kissimmee, FL January, 2016  
Talk: CANDELS Team Meeting, University of Santa Cruz, Santa Cruz, CA July, 2015

Talk: CANDELS Team Meeting, STScl, Baltimore, MD July, 2014  
 Poster: Bashfest Symposium, University of Texas, Austin, TX October, 2013  
 Talk: CANDELS Team Meeting, University of Kentucky, Lexington, KY August, 2013  
 Poster: GMT Science Meeting, University of Chicago, Chicago, IL June, 2013  
 Talk: CANDELS Team Meeting, University of Santa Cruz, Santa Cruz, CA September, 2012  
 Poster: 219th AAS Meeting, Austin, TX January, 2012  
 Poster: Bashfest Symposium, University of Texas, Austin, TX October, 2011  
 Talk: Texas A&M Astronomy Symposium, Texas A&M University, College Station, TX August, 2011–15
